

IPR Management 101

5th March 2024

Here is a quick recap of queries asked during the Webinar

1. **What are the search options available on the tool? Are these search options common to all types of IPR covered?**

There are several search options available for all IPs – trade mark, copyright, patent, design and geographical indication. Apart from the regular search, there is an option to add filters such as date range, proprietor, class/category, etc. The tool also has a dedicated section for proprietor and agent search for trademarks.

2. **Can the tracker provided by this tool, be also put on a competitor's IP?**

Yes, the tracker can also be put for competitor's intellectual properties.

3. **There are a lot of different statuses for application that have to be checked online. Do I get any automation on the changing status of my application?**

Yes, once you've added your mark to the tracker, any status change from the IPIndia website gets reflected on the tool within 24 hours and a corresponding e-mail is sent to the relevant party.

4. **For search options, how is this tool any different from the official government website?**

Why will I use mykase IPR search and not the official government website?

There are several reasons for using mykase IPR. This includes – all class search (trade mark), filtered searches, proprietor and agent search, the website works uninterrupted at any time of the day.

5. What makes mykase IPR better than other IPR management softwares in the market?

With Manupatra's 20+ years rich history, the company boasts of an untainted image like no other in the legal-tech industries and amongst lawyers. The commercials of all Manupatra offerings are competitive and the team is happy to negotiate and customize to suit client requirements.

6. The one-by-one class search for trademarks is tedious. Does the tool help with that?

Yes, the tool allows an all-class search as well as multi-class search
